The trimming you requested turned out well considering I'm new to such things. For instance, why do any of this by hand? If I used the lawn mower on the hedges then they would be lower in the first place. Alright sure, they would be really low, but think how much fuel we'll save over the long run. Right I know, by hand and it wouldn't use fuel, but you need to think more openly, radically even. Again, the entire grounds will have a much lower appearance, almost like a flat-top haircut. You know, like barbers used to give but instead of centimeters, think acres, basically like the entire grounds, but in a mannered flat shape. The watering instructions make
